Double Elimination Championship Tournament

Observations about this tournament format:

If a team loses twice in a row they are out. However, a 4th or 5th place team could play as many as five games if they make it to the championship.

The 1st, 2nd, or 3rd place teams can win it all with 3 straight wins.

Tie breaking rules:

If teams are tied at the end of regular play, the teams shall have a 2 minute rest at their respective benches and a 5 minute sudden death period shall be played.

If still tied, each team will choose 3 players for shootout.

Home team chooses to shoot first or second. The home team is always the team ranked higher in regular season play.

If still tied after 3 shooters then each team will choose another shooter until a winner is declared. (One for one, sudden death)

Each team has to use a different shooter until the team with the least amount of players in the game has gone through their entire shooter roster then both can revert back to choosing a same shooter.
